Quotation note

Konecny, R. (2017): Crustacea: Copepoda: Parasitica. In Moog, O. & A. Hartmann (Eds.): Fauna Aquatica Austriaca, 3. Edition 2017. BMLFUW, Wien.

Since all listed representatives parasitize numerous species of fish in different waters, the classification of a longitudinal distribution is not considered to be meaningful.

Species Inventory

Order Podoplea

Family Ergasilidae

Genus Ergasilus NORDMANN, 1832

Ergasilus sieboldi NORDMANN, 1832

Family Lernaeidae

Genus Lernaea LINNAEUS, 1746

Lernaea cyprinacea Linnaeus, 1758

Family Lernaeopodidae

Genus Achtheres NORDMANN, 1832

Achtheres percarum NORDMANN, 1832

Order Branchiura

Family Argulidae

Genus Argulus MÜLLER, 1785

Argulus coregoni THORELL, 1864

Argulus foliaceus (LINNAEUS, 1758)

Argulus japonicus THIELE, 1900
